KeyCaps™ with LED Light

KeyCaps™ make it easy to quickly and easily identify keys while also providing a bright light to illuminate any lock. The special polymer material provides a snug fit over the head of standard keys.

Holding the KeyCap between the thumb and index finger and squeezing lightly will activate the light. The light will last throughout thousands of uses without failure.

Each cap is carded on an attractive, attention getting package making this a great impulse sale item. A starter assortment is available with an attractive display, backer card and hooks.

The KeyCap simply slides over any standard key head.

How To Order

Key Caps are available in an assortment or as open stock.
